11 February 1986

NOTE FOR: VC/NIC (GF), NIOs/EA, SP, GPF, LA, CT, AF, ECON, USSR

SUBJECT: Brief Briefing Papers for DCI's Next Worldwide Briefing

1. The next WWB outing will be Tuesday, 18 February, at 1:30, before House Appropriations' Defense Subcommittee. NIOs to accompany: NESAs-VC/GF, SP, GPF, CT, LA (and Doug MacEachin).

2. In addition, DCI's office has asked that NIC officers prepare brief updated briefing papers on key-item subjects which might arise -- on other questions that had not been discussed in the WWB itself. I would interpret this to include Marcos/Philippines, Angola, Soviet domestic problems, LA debtors, Syria-Israel, Haiti, Mexican economy, El Salvador, Soviet military deployments to Cuba, Iran's offensive, India-Pak, Pak nuc, China's proliferation policies, Afghanistan, Europe round-up. In some cases the previous talking points you did (ca. 27 January) will still apply; hence just change the date. In other cases, slight updating needed. In still other cases, new write-ups required. Try to confine to about 1 page, single-spaced, per major subject.

3. DCI's office wants these briefing papers by COB this Friday. Hence, please deliver them by 4:00 Friday. Thanks.
